Benefits for your Company

Your student intern:

- Allows for flexibility in staffing needs without long-term commitment
- Assists in the completion of special work-related projects
- Is enthusiastic, performance-oriented and full of fresh insights
- Enhances your international network and global decision-making
- Contributes to the diversity of your staff and their intercultural skills
- Brings along inside knowledge on German business connections
- Speaks fluent English, German and possibly a 3rd language

Project sponsors:

“Study & Work International – From Bavaria into the world” is an initiative of vbw – The Bavarian Industry Association and the Bavarian State Ministry of Education, Science and the Arts.

Bavarian State Ministry of
Education, Science and the Arts

THINK GLOBAL RECRUITMENT!

Get fresh thoughts from Bavaria!

Dear company representative,

The project "Study & Work International – From Bavaria into the world" aims at fostering intercultural skills and international experiences amongst Bavarian students through work placements at companies abroad.

To facilitate the search for work placements, Study & Work International provides a web portal for companies to advertise positions to all Bavarian Bachelor's or Master's students for short or long term stays in all study disciplines from engineering, IT, science to business administration, health care, languages or any other subject.

- With the portal your advert reaches up to 360,000 students of 19 Bavarian Universities of Applied Sciences as well as 10 more research oriented Universities.
- During the first year of the web-portal you are welcome to advertise work placement positions/ student internships for free.

As director of hochschule dual, the initiative carrying out the project Study & Work International, I am looking forward to working with you.

Kind regards

Director hochschule dual and
President University of Applied Sciences Landshut

TAKE HIGHLY MOTIVATED STUDENT INTERNS!

What kind of internships are we looking for?

We are looking for work placements from 1 to 12 months offering demanding and interesting tasks corresponding to the student's field of study:

- Compulsory internships of 4 months or more
- Additional work experience for up to one year
- Bachelor's/ Master's thesis for your company

What do the students have on offer for you?

The Bavarian Higher Education institutions are amongst the best in Germany and internationally renowned. You can expect a high level of subject related and basic knowledge from your student intern. The students are looking for challenges to enhance their practical competences.

Our students come from:

- 19 Universities of Applied Sciences
- 10 research oriented Universities
- all disciplines and levels of study (Bachelor's & Master's)
- some studying in cooperation with their employer with a thorough practical understanding.

You will be surprised by our students' level of knowledge. To make sure that your expectations match with the content of the study courses, you are welcome to speak to us or the respective department of studies. We strive to make sure that the placement will lead to excellent results for your company - and the student!

How to become a company partner of the placement/internship scheme?

- Simply contact us with your internship advertisement.
- In 2016/17 your placement offer on our website is for free – company banners on request.
