

Clean air solutions

EXHAUST AIR TECHNOLOGY

Cost-effective solutions for Air Pollution Control

Małgorzata Szotys

AHK Croatia – 20 -24 October 2025

THOLANDER
Environmental Engineering

Application Areas

Wastewater Treatment

Chemical/Oil & Gas

Food Processing

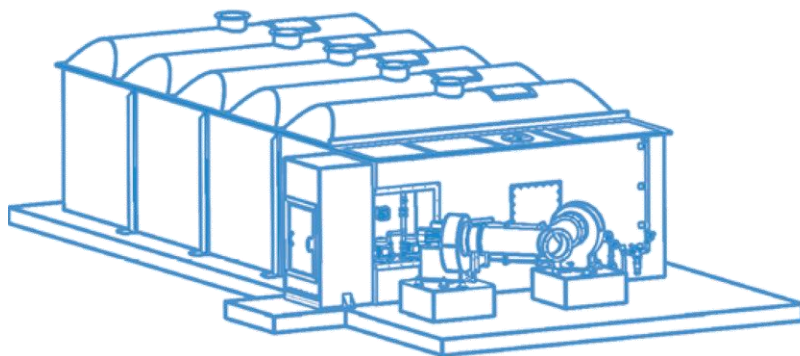

Tobacco

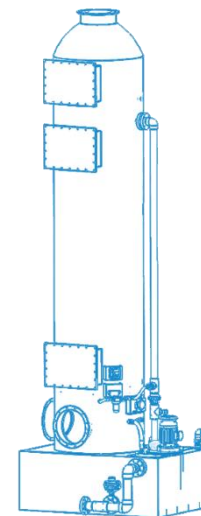

Waste Treatment

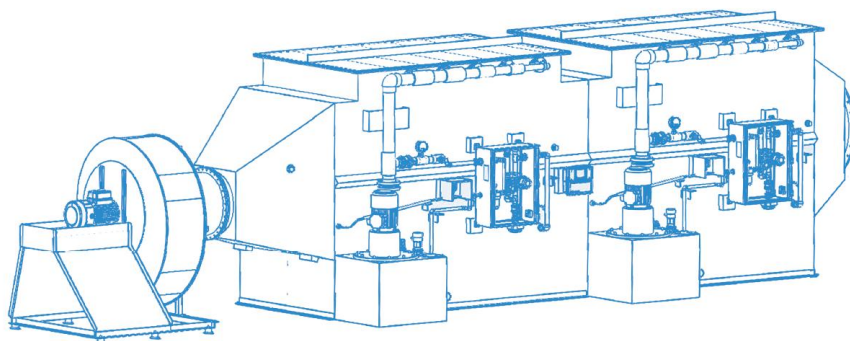

Solutions

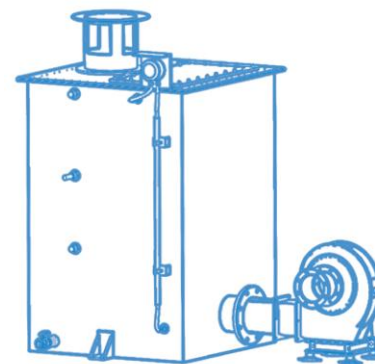

Biofilter

Biotrickling Filter

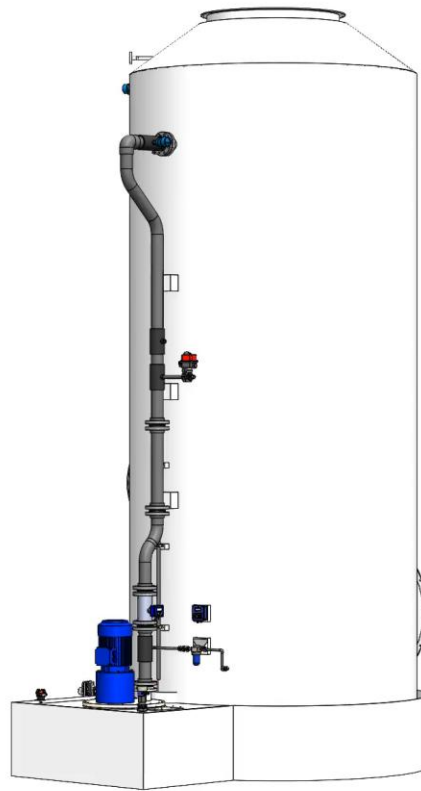

Chemical Scrubber

Carbon Filter

Counter-Current Scrubber

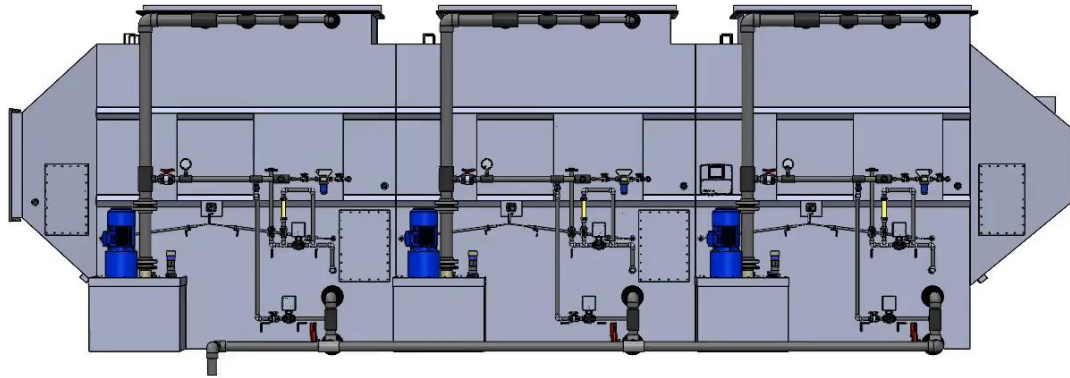

Composting plant Tychy in Poland Scrubber and biofilter (2 x 65,000 m³/h)

Animal Food Production in Poland Scrubber and biofilter (10,000 m³/h)

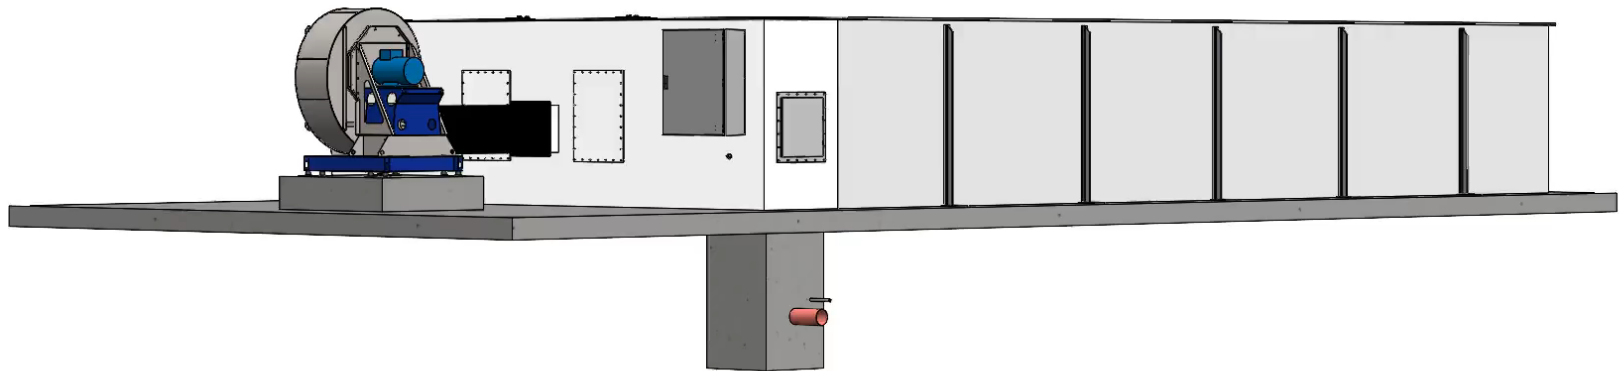

Cross-flow Scrubber

Rendering plant in Poland 3-stage Cross-flow Scrubber (30,000 m³/h)

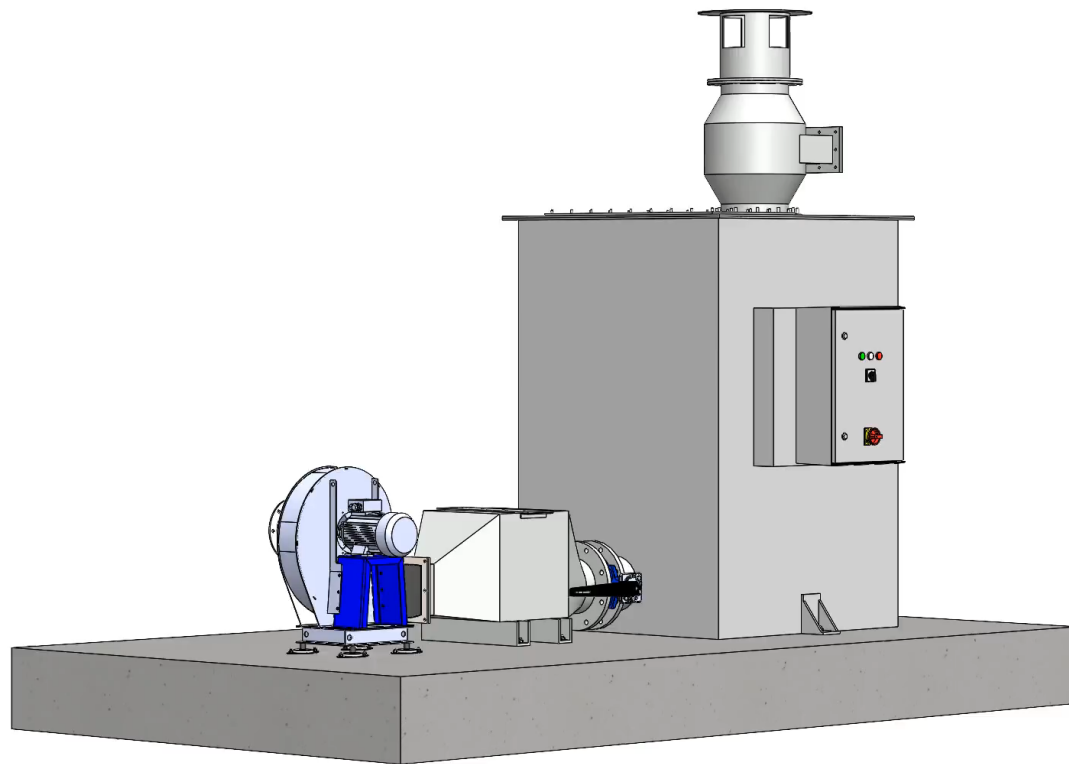

Biofilter

Composting Plant Koscierzyna Scrubber nad biofilter 12 000 m³/h

Activated Carbon Filter

Aluminum recycling in Norway

Container adsorber unit (60,000 m³/h)

THOLANDER ABLUFTECHNIK

More than 1,000 references from a wide range of application areas around the globe are testimony to the trust our satisfied customers have in us.

“Every hour, we can clean more than 12 million m³ of waste air worldwide”.

HELPING THE WORLD
BREATHE EASILY
AGAIN.
